## PROJECTION SCREENS WITH RIGID FRAME

Very sturdy screens, quick to assemble and disassemble, particularly suitable to be rented out and for audio-visual operators. Assembling of the frame through internal squares for angles and joints for lateral parts, in the most important formats for which frames are cut in half or in more pieces in order to easily assemble and disassemble the structure. Frame in aluminium varnished with matt black epoxy powders. The structure, particularly suitable for back screen projections, offers the possibility to be widened

by adding frame parts, in case the screen must be enlarged, using the same basic structure. It is possible to equip the structure with a pair of steel "T" uprights for screens up to format 400 x 300 cm. The screens are realized with (standard) fireproof, washable, professional white fabric, and upon request, with other fabrics for front and back screen projections such to satisfy all particular projection needs.

<b>Canvas</b>	Realised with the following projection fabric: SOFT WHITE, SOFT MATT WHITE, SOFT WHITE TRANSOUND, RETRO
<b>Frame</b>	Extruded aluminium, section 70x20 mm, epoxy powder coated, matte black colour. Screen surface always flat tensioned by means of elastics hooked on the rear profile, provided with sliding swivels for a perfect flatness.
<b>Installations</b>	Hooks for wall anchoring included.
<b>Certifications</b>	CE
<b>Warranty</b>	12 months as per conditions indicated to the instruction manual, 60 months on the mechanical parts (engine included).
<b>Accessory (not included)</b>	Couple of T-shaped upright stands: all screens are designed to be fitted on T-shaped upright stands, in case wall mounting is not possible.

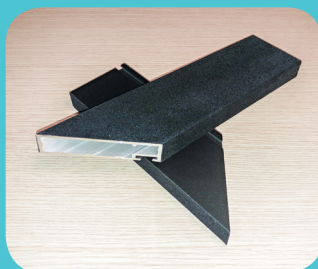

## CUSTOM VERSIONS

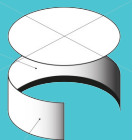

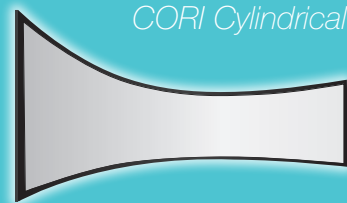

*CORI Curved*

*CORI Velvet Frame*

*CORI Cylindrical*

*CORI Canvas*

Also available CORI 3D with silver fabric.
