

SMS FLATSCREEN X CH TRIANGLE

Display your message high – and save floor space.

The Triangle-mounted screens will help your presentation catch the eyes of passers-by – no matter what direction they come from and without taking up valuable floor space. An effective way to communicate your message in such settings as conventions and hotel foyers. The main column can be swivelled and the screens tilted to give simple adjustment of the viewing angle. Electrical power sockets can be mounted at the rear.

The X series is characterised by clean and refined features. The cable holder, for example, into which it is easy to place all cables by hand. The surface finish has also been given extra attention.
