

Unfold an exceptional
overview.

News for Stock Brokers and others who want it all covered at once.

Imagine getting the whole picture at once – company news and share price movements in one simultaneous panorama covering all of your information suppliers. The SMS Multi Control offers essentially unlimited solutions for up to eight screens mounted in a gently curved formation, or having the exact composition required to realise your greatest visions on the minimum possible (desktop) area. It's easy to get started due to the simple and exact edge-to-edge mounting. And the straightforward maintenance is just as important. All other screens will remain in operation while any one screen is being serviced or replaced. Come in, and be surrounded!

Up to 8 screens!

Perspective, flexibility and design in perfect harmony. "It must be an attractive, compact and unified solution that gives a good overview. It must be easy to mount, adjust and maintain." Does this sound familiar? Unfold to find the solution!

A whole new ball game. Do you play the markets or computer games? Maybe you play both. Once you've taken the step from a notebook screen to a Multi Control installation, you will not want to go back again.

All covered. Using our popular 3D-arm in the bracket provides the ability to adjust in several planes and the choice of angling the outermost screens inwards or outwards.

The final touch. Hex socket screws for simple and secure fine adjustment.

Smart with looks. Exact edge-to-edge mounting can be used for both curved and flat screen configurations.

A foot on the table might be appropriate. The boomerang foot is an elegant and simple solution for situations in which it is possible to place the bracket directly onto the desk.

Fixture point with high flexibility. The SMS Clamp allows you to attach the bracket at the edge or corner of a desk.

Big visions fit onto small surfaces! For people who are looking for a solution that does not interfere with the working area. Screens and brackets seem to hover above the desk.

SMS Multi Control Dual Clamp

SMS Multi Control Triple Clamp

SMS Multi Control Quad Clamp

SMS Multi Control 2 x Triple Clamp

SMS Multi Control 2 x Quad Clamp

Pick your dreamteam. Choose the combination that suits you – we have solutions with from two to eight screens. All can be supplied with boomerang foot or clamp. More information about all combinations, screen sizes and fixtures is available at www.smartmediasolutions.se/multicontrol
