F series 65"

avocor™

**Warranty**
3 year Return To Base as standard.*

Precise, Powerful, Professional

The Avocor F-6500 65" interactive display has been created with Avocor Intelligent Touch using InGlass™ technology, delivering extremely responsive and smooth touch experience. Perfect for group collaboration, the display supports 10 simultaneous touches and is five times more responsive then other touch technologies in the market.

Microsoft Windows 10 operating system

Incorporating a Microsoft Windows 10 operating system offers users a familiar Windows interface, meaning no additional training is required. Combined with Avocor's superior touch technology, the 'in-app' inking features provide a superior experience in both Microsoft applications and our Avocor whiteboarding softwares.

Avocor Intelligent Touch using InGlass™

This technology can precisely recognise the size of the object touching it and can easily tell the difference between your finger, pen or palm. Users will experience more accurate annotations and clearer writing as well as a superior performance when inking with the 3mm passive pen. No more waiting for the ink to catch up.

Advanced Connect and Control Bar

The F series comes with the advanced Connect and Control bar including control keys and additional front facing USB ports perfect for connecting 'guest' devices such as additional laptops, webcams and visualisers.

Full HD resolution

Make meetings and lessons more engaging with 1080p Full HD screen resolution delivering crisp, clean visuals keeping participants and students engaged on the displayed content.

Resistant to light interference

The F series is not affected by changes in the ambient light conditions. So even when used in direct high brightness or widely changeable conditions, your touch experience will not be affected.

Ultra-low profile bezel

With an ultra-low profile bezel measuring less than 2mm, there is no void to attract dust or dirt which can limit performance reducing the amount of downtime.

Avocor Note by Nureva included

Avocor Note by Nureva has been specifically designed to enable every user to create professional looking whiteboard content. Pre-loaded with a comprehensive range of interactive tools and resources for both education and business, creating professional and easily sharable content has never been easier.

Avocor Eclipse included

Our interactive teaching software designed to enhance student leaning is included, subscription free, with every Avocor display. With over 50 subject specific tools for a variety of curriculum topics, Avocor Eclipse enables teachers and students to create engaging and interactive lessons in a live environment making every lesson truly immersive.
