

F90-4K13

11,800 lumens, 4K UHD, DLP laser phosphor projector

- **Razor-sharp 4K images**
- **Ultimate installation flexibility, 24/7 operation**
- **Increased uptime, reduced costs**

The stunning image quality and laser phosphor light source of Barco's F90 projectors enable you to provide exceptional experiences while saving both time and money. Designed for installation in everything from high demanding visitor attractions to simulation applications that require 24/7 operation, the reliable F90 4K13 is equally suited for events, retail and advertising as well as boardrooms and auditoriums. Thanks to its 3D functionality, the projector is also perfectly fit for theme park dark rides and interactive experiences.

Superior image quality

The F90-4K13 delivers razor-sharp images at 4K UHD resolution with a high level of detail, and highly saturated colors that meet the Rec. 709 color space. Featuring an advanced optical design, this reliable projector provides a constant light output, for long-term, worry-free operation.

Unprecedented business value

The F90-4K13 projector enables you to increase uptime while driving costs down. Through its laser-phosphor light source and advanced cooling design, it provides up to 40,000 hours operating time without need for lamp changes - resulting in considerable cost-savings on maintenance and consumables.

Ultimate installation flexibility

This projector can run in any orientation, giving you more flexibility in projector location and orientation. Thanks to its wide array of high-resolution FLD and FLD+ lenses – from ultra-short throw (0.3:1) to long throw (9.75:1) – each providing a wide lens shift range, the F90-4K13 accommodates almost any projector configuration.
