SMART Board® 800 series
interactive whiteboard

Create a more collaborative and engaging classroom for your students with a SMART Board 800 series interactive whiteboard.

Collaborate Naturally™ | **SMART**®

Display all your lessons in BrillantColor with a SMART U100 projector

Featuring DLP® BrilliantColor™ Technology, SMART's ultra-short throw U100 projector provides clear, dynamic images with 3,600 lumens brightness. It is HD-ready with dual HDMI and USB connectivity and comes in two models to support both widescreen and standard interactive whiteboards. And with a long-lasting lamp life (up to 6,500 hours in economy mode) the U100 projector can reduce your classroom downtime and maintenance costs.

Key Features

Multitouch experience
Four users can write, perform mouse functions, erase and manipulate objects at the same time with hand gestures.

Freestyle interaction
Teachers and students can write in digital ink, move objects with their fingers and much more, without the need to switch to a multiuser mode.

Object awareness
Cameras know when a user switches between their finger, fist or a pen. A user can also write with a pen, erase with a palm and move objects with a finger, without having to press buttons, access on-screen menus or replace tools in the Pen Tray.

Touch gestures
Toss, rotate and interact with objects while using SMART Notebook software. Includes built-in support for multitouch operating systems such as Windows® 7, Windows® 8 and Mac® OS X.

Powered by SMART Learning Suite
SMART Learning Suite includes SMART Notebook®, SMART lab™, SMART response® 2 and SMART amp™. Together, they connect students, teachers and devices to turn lessons into enriching learning experiences.

SMART Ink
Write over applications, websites and videos as legibly as on paper. Your notes become objects that you can move and manipulate.

Projector Controls
The SMART Board® 800 series, with projector controls, is compatible with the SMART U100 projector and with Epson PowerLite® 530, 580 and 585W projectors for SMART. The projector control panel is integrated into the pen tray to easily control projector power, volume and input select.
