

Interactive Whiteboard 92" IRB2-92QC

Specktron offers technologically advanced whiteboards in the IRB Series line. The IR interactive whiteboards features 4 point touch technology that enables multiple users to write and draw simultaneously. Users can switch seamlessly between writing, drawing and moving objects with a finger, stylus or even a pointer. Requires only a single USB connection to operate. No external power supply needed. The IRB series come with a hard wearing anti-glare ceramic surface and includes full interactive software; an ideal tool to increase engagement and collaboration within any educational, corporate or professional teaching or training environment.
