

IN5300a (SERIES)

**Brightness, Flexibility and
Performance for Your
Conference Room or
Medium Sized Venue**

Bring Clear Communications to Your Large Conference Room or Classroom

The InFocus IN5300a Series DLP® projectors are professional display devices for professional installations – and are also a great value.

Stunning image quality, brightness, and flexibility are all vital and these large venue projectors have them covered and then some. A broad range of connectivity, three lens options, and a small form factor help these projectors fit into a wide variety of venues, such as large classrooms or conference rooms and houses of worship.

InFocus has been in the display business for about as long as there's been such a thing. Our experience shows in the quality and flexibility of these projectors as well as in our service and support.

Why choose the IN5300a Series?

- Up to 6000 lumens display bright, clear images even in rooms where lighting is still needed
- Three lenses choices: standard lens (included), short throw, long throw
- DisplayPort, HDMI 1.4 and DVI-D digital inputs
- Lens shift to get your image in the perfect position
- 24/7 rated; no filters to clean or replace
- Full 3D support for PCs, Blu-ray, cable boxes and more, plus 3D sync port
- 2-year limited warranty, plus extended warranty options

Flexibility for Perfect Image and Projector Placement

Optional Lenses

The IN5300a Series projectors come with a standard zoom lens and offer 2 optional lenses – short throw and long throw – to fit your unique space or application. It only takes seconds to swap lenses – just pull one out and snap the other into place.

Lens Shift

Horizontal and vertical lens shift help you get the image exactly where it needs to be – providing extra flexibility for projector placement.

24/7 Rated

The IN5300a DLP projectors are filter-free and rated for 24/7 fail-safe operation. Plus, replacing a lamp is easy thanks to the ceiling-accessible lamp door.

InFocus
Collaboration That Works

Connectivity for Today's Digital World

HDMI and DVI Digital Inputs

Few projectors offer HDMI and DVI-D digital inputs. The IN5300a projectors provide both to suit the needs of its users now and in the future.

DisplayPort Technology

The IN5300a Series have DisplayPort, the most powerful display connection to date. It's compatible with a slew of current and emerging connection types, such as Thunderbolt.

RGBHV/YPbPr BNC Inputs

The IN5300a Series of projectors are compatible with the leading professional switching and signal processing equipment from leading manufacturers like EXTRON, KRAMER, IN-LINE, and more.

Control It Your Way

Use the RS232C port to add the IN5300a to your room control system such as Crestron, AMX, SPcontrols, and others. Or, use the RJ45 port to interface with your network control system such as Crestnet, AMX Device Discovery, and InFocus ProjectorNet.

Powerful and Efficient

High and Higher Brightness

The 5000 lumens of the IN5316HDa displays crisp, detailed images even in bright rooms. But if even more brightness is needed, you can bump it up to 6000 lumens with the IN5312a. Plus, their single-lamp design makes it economical and easy to maintain.

Control and Monitor Over Your Network

Network administrators can remotely access and control the projector over standard LAN/WAN, including scheduling start-up and shut-down times to save energy and lamp life.

Connectivity

HDMI 1.4	Composite Video
VGA x 2	3D Sync Port
S-Video	12V screen trigger
Component Video	USB power port
DVI-D	RJ45/LAN
DisplayPort	USB Type B (service only)
5 BNC (RGBHV/YPbPr)	

3D

The IN5300a Series supports multiple forms of 3D -- including HDMI, Blu-Ray, 3D broadcasting, video games and NVIDIA 3DTV PC connectivity -- in 1080p Full-HD for your maximum viewing pleasure. Compatible with 144Hz DLP Link™ 3D glasses. Or add a 3D emitter with the projector's included 3D Sync Port.

Wireless Ready

Free yourself from cables and speed your set-up time with the optional InFocus LiteShow wireless adapter. Switch presenters in seconds and transmit data, audio, and video over a 300-foot (91m) range.

Compact size fits easily into a 2x2' ceiling tile

Specifications*

IN5312a

IN5316HDa

Native Resolution	XGA (1024 x 768)	1080p (1920 x 1080)
Display Technology	.7" DC3 DLP	.65" DC3 DLP
Brightness	6000 lumens	5000 lumens
Lamp Life**	3500 hours (Eco Mode), 2500 hours (Normal Mode), 1500 hours (Bright Mode)	
Lamp Power	370 W UHP	
Contrast Ratio	2000:1	
Lens Type	Manual zoom, focus and shift	
Lens Shift - Vertical	-40% to 0%	-35% to 5%
Lens Shift - Horizontal	+/-5%	
Keystone Correction	+/- 40° vertical
