

An unique video experience for all home-cinema devotees: this aptly sums up this creation by Adeo Screen. Would you like to immerse yourself completely in your favourite film? Try Plano Curved screen, and recreate that authentic theatre atmosphere: let each video projection surround you with images and become a totally involving emotional and sensory experience.

Plano Curved artfully blends expertise and innovation, incorporating the distinctive features of the Plano model while introducing a characteristic curved profile.

In addition to the product's outstanding performance, there are fundamental technical aspects that we feel should be highlighted: the profile's curvature and the optimal projection radius (based on the screen's dimensions) significantly improve the image's luminance uniformity. This solution can also be adopted with high-gain projection surfaces (such as HeliosWhite and AmbientGrey) with a native 2.35:1 format, eliminating any loss of luminosity at the edges that would normally occur when using a non-curved panoramic screen.

The profile's special black-velvet finish completely absorbs the light, enhancing the perception of contrast in the projected images. Available in 4:3, 16:10, 16:9 and 2.35:1 formats.
