

Ultra Short Throw
WXGA Interactive Projector
 WDL-3500i

The WDL-3500i delivers a complete interactive projection solution in a standalone package. Long life TrueLaser powers Ultra Short Throw optics to deliver a bright, large and high quality image from the shortest throw distances, the WDL-3500i is the premium interactive projection solution from Specktron with a 20,000 hour laser life. Supplied with 2 pens, which can be used simultaneously to interact with the on-screen image. The TrueLaser light engine features exceptionally long life, instant on-off, low power usage and low noise. With the addition of the Laser Curtain module the projection surface can be finger touch activated.
