

FWD-77A80J

77" BRAVIA MASTER Series
4K Ultra HD, HDR, OLED
Professional Display

Overview

World's first professional display with cognitive intelligence: extraordinary 4K HDR images, effortless style and sound to match

Add unprecedented impact to your visual communications with the stunningly styled FWD-77A80J 77" BRAVIA OLED Professional Display. Combining bright, beautiful 4K HDR image quality with dependable operation, it's an imposing addition to corporate boardrooms, lobbies and reception areas.

Optimised for professional applications, BRAVIA MASTER Series takes full advantage of Sony's cutting-edge display and processing technologies for startlingly lifelike 4K Ultra HDR images and sound to match.

Our ground-breaking Cognitive Processor XR understands how humans see and hear. Taking vision and sound to the next level, this revolutionary processor uses human perspective analysis to cross-analyse and optimise hundreds of thousands of picture elements, delivering an immersive audiovisual experience that pulls viewers deeper into every scene. Combined with our unique OLED panel, the result is uniquely deep, natural HDR images with rich, vibrant colour and ultimate pure blacks

- and complemented by cinematic sound that comes directly from the 77" screen.

For even greater peace of mind there's the added reassurance of our 3 Years warranty with Repair or if necessary advanced exchange handled by local partner, on premise where possible. You can also choose to extend your support for an additional 2 years.

Features

4K image resolution (3840 x 2160 pixels)

4K offers four times the detail of Full HD, with a resolution of over 8 million pixels bringing extra clarity to corporate display, education and digital signage applications.

High contrast OLED screen technology

Each self-illuminating pixel is precisely controlled, ensuring breathtaking OLED pictures that feel wonderfully deep and natural. XR OLED Contrast boosts colour and contrast for wonderfully pure, true blacks plus areas of spectacular high peak brightness.

Wider colour with XR TRILUMINOS Pro™

Powered by our ground-breaking Cognitive Processor XR, XR TRILUMINOS Pro™ allows BRAVIA to access a wider palette of colours, expressing the subtlest differences as seen in the real world. An enhanced hue and saturation range reveals more natural shades and precise tonal details, even in dark scenes and with hard-to-reproduce pale colours.

Spectacularly real 4K HDR images

XR HDR Remaster detects and analyses individual on-screen objects, adjusting their colour and contrast for even more realism. Object-based processing powered by

BRAVIA XR™ fine-tunes hue, saturation, brightness, motion vector, image bandwidth and more. The result: exceptionally real scenes with greater depth, lifelike textures and natural colours.

Smoother movement

OLED XR Motion Clarity™ ensures that even the fastest on-screen action stays smooth and clear. Moving images are precisely controlled to minimise blur, with less reduction in brightness during high-speed scenes.

Sound that matches the action

With our Acoustic Surface Audio+ technology, powerful actuators directly behind the OLED panel create high-fidelity, accurately balanced sound that precisely tracks the action on screen.

Do more with Android TV

Discover a world of apps and online content powered by Android TV. Use Voice Search to find content easily with no typing.

Google Chromecast and Apple Airplay

With Google Chromecast and Apple Airplay built-in, it's easy to mirror content and enjoy it super-sized on BRAVIA.

Flexible mounting and installation

BRAVIA Professional Displays offer flexible installation options, with VESA standard mounting for easy integration into a wide range of environments.

Greater peace of mind

There's the added reassurance of our 3 Years warranty with Repair or if necessary advanced exchange handled by local partner, on premise where possible. You can also choose to extend your support for an additional 2 years.

Specifications

Display features

Display type	OLED
--------------	------

Display specifications

Screen Size for WEB(diagonal, cm, integer or 1st decimal)	195 cm
---	--------

Display resolution (H x V, pixels)	3840 x 2160
------------------------------------	-------------

Screen Size (inch, measured diagonally)	77" (76.7")
---	-------------

Viewing Angle (Right/Left)	178(89/89) degree
----------------------------	-------------------

Viewing Angle (Up/Down)	178(89/89) degree
-------------------------	-------------------

Display Resolution	QFHD
--------------------	------

Aspect Ratio	16:09
--------------	-------
