EF-100W Android TV Edition

LASER | | | HDMI
5 W | AUDIO | 150"

Stylish and portable laser projector with Android TV. Supersize content easily via streaming devices and the HDMI port.

This projector is sleek and sophisticated, has an impressive range of features and includes an Android TV stick, Compact and lightweight, it's easy to move from room-to-room or out of the house. It projects almost instantly - in normal daylight - and in any direction. Show content from a phone, streaming device, laptop, games console, and more. It's easy to set up and you can use it for years to come.

A smarter way to watch

Android TV lets you stream shows, games, movies, news, sports and more[1]. It's so easy; plug the Android TV stick into the projector's HDMI port, connect via Wi-Fi and start streaming[2]. Tell it what you want to watch with built-in Google Assistant voice control, or simply use the remote. With Chromecast built-in, it's easy to share content from your phone, tablet or laptop[3]. Entertainment apps such as YouTube are preinstalled, and more can be downloaded via Google Play[1]. You can connect the stick to sound bars, headphones and gaming controllers via Bluetooth.

Supersized content wherever you want

Create an impressive 150-inch display wherever you want with this light and compact projector. It's easy to pick up and move from room-to-room or out of the house. It can also be turned on its side and project in any direction.

Bright 3LCD technology

Even in normal daylight this projector can deliver a bright and vibrant picture, so there's no need to turn lights off, block windows or even use a screen.

Stress-free set up

Launch the welcome guide with the remote to see how to easy it is to set up. Sound is taken care of with the built-in speakers

Watch your favourite content for the next 10 years[4]

Thanks to this projector's long-lasting laser light source, you'll be able to watch your favourite content for the next 10 years[3] without maintenance.
