

Upgrade to the ultimate gaming experience

Input lag
Never miss a moment. With less than 20ms¹³ lag rate you won't miss a second of big screen action, meaning you stay fully immersed in your gaming experience. Our super fast connection ensures the richest, sharpest and most enjoyable gaming yet.

4K/120fps Input Support
Pixel perfect inputs. Keeping pace with the latest connectivity, enjoy top tier 4K resolution through the HDMI 2.1¹⁴ port, ensuring realistic pixel perfect 120fps for the most stunning gameplay yet, even at 300 inch displays.

Dark gamma uplift
Enjoy every detail. Even the darkest corners are easy to navigate with our advanced Dark Gamma uplift tech, vividly illuminating the most intricate features in every second of gameplay. So you can see in the dark, where your enemies can't.

Truly advanced, genuinely innovative products

Set the scene
Make your home centre stage for all the action with Epson's home projectors. Transform the everyday, whether you're catching your favourite sports, watching a classic movie, streaming a box set or playing the latest game. You can capture everyone's attention with an impressive 300" display and bring family and friends together to experience those memorable moments.

Perfect images every time
We think that setting up a projector should be simple. As such, Epson's projectors are easy to place just about anywhere. Have a perfectly adjusted image in seconds; with our optical zoom, vertical and horizontal lens shift⁸, and keystone correction, you're sure to find our projectors are quick and easy to set up.

Lens shift
Screen position can be adjusted without any deterioration in image quality

Keystone correction
Projecting at an angle? Simply correct any distortions in screen shape by moving the slide on top of the projector

Enjoy up to 15 years of entertainment⁷
With up to 10,000 hours lifetime on the lamp light source, you could watch a movie every day for the next 15 years⁷. Epson projectors are known for their reliability, so you don't have to worry about missing a minute of your favourite film, game or programme.

4K PRO-UHD for crisp, clear images*
4K PRO-UHD⁹ delivers a bright, amazingly sharp lifelike picture by combining advanced Epson technologies with the ability to accept native 4K content and upscale non-4K content exceeding full HD resolution.

Brighter, vivid projection
White brightness alone cannot bring the true colours you see everyday to life. That's why the 3LCD technology found in Epson's projectors delivers an equally high White and Colour Light Output (CLO).

Sound by YAMAHA*
Enhance your home entertainment experience with premium sound featuring Yamaha's unique and powerful DSP processing technology AudioEngine™ that delivers stunning 3D surround sound to match the immersive screen size.

*Please see spec table for compatible projectors.

Smart projection^{1,2}

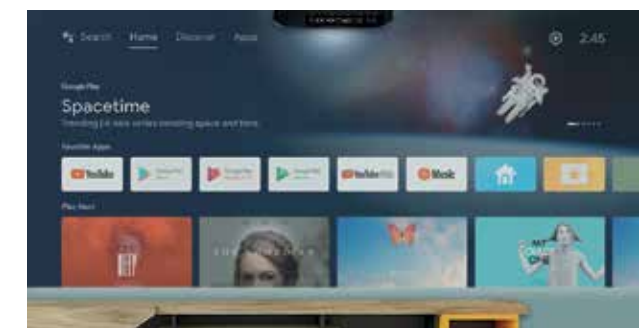

Do it all on Android TV. Access 400,000+ movies and shows, cast photos, listen to music, and more.

A faster way to the entertainment you love. Search for shows, get recommendations, even control your projector – faster – with your voice. Ask Google for a little help on your big screen.

Chromecast built-in is a platform that lets you stream your favourite entertainment from your phone, tablet or laptop right to your projector. Easily control your projector with apps you already know and love from your iPhone®, iPad®, Android phone or tablet, Mac® or Windows® laptop, or Chromebook.

sound by YAMAHA

- Android TV™, Google, Android, Google Play, YouTube and other marks are trademarks of Google LLC.
1. Casting optimised for selected services only. Streaming quality for other content may vary. Supported operating systems and devices: Android 2.3 and higher, iOS® 7 and higher, Windows® 7 and higher, Mac OS® 7 and higher, and Chrome OS (version 38 or higher).
 2. Google Search function is worldwide. Google Search cannot communicate the Smart solution with Google Home. Google Assistant is not available in certain languages and countries.
 3. 12 months or 1,000 hours, whichever comes first.
 4. 36 months or 3,000 hours, whichever comes first.
 5. Based on watching content for 5 hours every day with the projector on eco mode.
 6. 5 years or 12,000 hours, whichever comes first.
 7. Based on a film length of a 105 minutes when the projector is in eco mode.
 8. Does not apply to all models, please check specification.
 9. 4K Enhancement Technology shifts each pixel diagonally to double Full HD resolution. Resolution is Full HD in 3D Mode.
 10. 2001 to 2022, 500-lumen and above, excluding screenless TVs, Futuresource Consulting – Quarterly Projector Market Insights – Worldwide Analyzer CY22Q4.
 11. Colour brightness (colour light output) in brightest mode, measured by a third-party lab in accordance with IDMS 15.4. Colour brightness will vary depending on usage conditions. Top-selling Epson 3LCD projectors versus top-selling 1-chip DLP projectors based on NPD sales data for October 2019 through September 2020. For more information please visit www.epson.eu/CLO
 12. Gamut volume in brightest mode, measured by a third-party lab in 3D in the CIE L*a*b* coordinate space. Top-selling Epson 3LCD projectors versus top-selling 1-chip DLP projectors based on NPD sales data for May 2017 – September 2020.
 13. There is no official standard for Input Lag measurement and this measurement is made based on the method set by Epson. Please note, each manufacturer measures Input Lag independently according to their own methods and therefore it is recommended to use as reference. Projector input lag varies in consequence of a difference of input signal, setting conditions and so on.
 14. The HDMI 2.1 port is only available on the EH-LS12000B and EH-LS11000W.

* Warranty offers are not available for all countries. Please contact your local Epson representative. For further information please contact your local Epson office or visit www.epson-europe.com
